4 TOPICS covered by alternating

Video projections

Post-screening Q&A interactive sessions

Round Tables including user testimonials

WHY EXHIBIT?

Your technological SME provides innovative solutions in one of the highlighted topics.

SEIZE THE OPPORTUNITY

- to talk to international end-users.
- to search for complementary companies.
- to fully understand this market and have direct connections with its main private and public stakeholders.

WHY VISIT?

- Because you use different kinds of aircrafts to complete SPI missions.
- Because you are looking for more efficient detection and protection solutions.
- Because French high-level solutions can also be cost effective when achieved by SMEs.
